

Atlantis[®] Detention Tank

For Non-Free Draining & Clay Soil Conditions

(Large Filtration Unit)

NOTE: Atlantis Water Management does not condone the use of detention tanks. The clean water stored in Atlantis tanks can easily be recycled or allowed to percolate into the surrounding ground. Instead of becoming contaminated when it is released into the storm water system, as with traditional systems.

NOTE: Some Australian Councils require DCP.

DISCLAIMER: All information provided in this publication is correct to the best of the Company's Knowledge and is given out in Good Faith. This information is intended only as a general guide, no responsibility can be accepted for any errors, omissions or In-correct assumption. As each project is unique, and as Rebirth Pty Ltd, Atlantis Water Management, Atlantis Corporation Pty Ltd and its Distributors and Agents World Wide have no direct control over the methods employed by the User in Specifying, Installing or Supervising of its products hence no Responsibility is accepted by Rebirth Pty Ltd, Atlantis Water Management, Atlantis Corporation Pty Ltd and its Distributors and Agents World Wide. Users should satisfy themselves as to the suitability of the product for their purpose.

All product designs, and specification are subject to change without further notice. All Atlantis[®] products are tested in approved NATA laboratories, and safe allowed tolerance should be practised in actual field, due to any unforeseen situations, onsite and on products.
